NOTE: Before completing a risk assessment please read the guidance notes document.

		<p>supervised by a qualified in date Coach.</p> <p>No CCK lone paddling, but lone paddlers can be supervised from the bank by a suitably dressed and trained 'buddy'</p> <p>All Coaches to be correctly trained in all rescue scenarios as recommended by BC. FSRT/PSRC being the minimum level of training.</p> <p>All session leaders to be fully in date for Coaching including CPD and rescue training.</p>				
Entrapment or entanglement in ropes and tapes	All Participants	<p>Participants instructed in good equipment 'housekeeping' and the need for unused ropes and tapes to be stored or stowed safely in the work area or craft.</p> <p>Instruction of safe working practice with ropes and slings, especially when towing.</p> <p>Emphasise NEVER to tie direct into a rope or place a sling over the head.</p> <p>Participants should carry a rope knife when working with ropes or tapes.</p>	Continued vigilance by Coaching Staff and constant reminders of good housekeeping and stowage of ropes and slings.	All Coaching deliverers	Every Course	
Injury or Capsize resulting from a seal launch	All Participants	<p>Only Seal Launch under supervision of a correctly qualified and trained Coach.</p> <p>Only Seal Launch in a safe and appropriate area where the bank and craft will not suffer injury, that is deep enough for the launch and clear of all other water users ie. Off the plastic SCC Jetty or on a pebble beach into the sea.</p>	No SCC Sessions are to Seal Launch on the RMC apart from either the SCC Plastic Jetty or the grass area opposite over the wooden edge. Seal Launching anywhere else along RMC is strictly prohibited.			

Risk Assessment – Seapoint Canoe Centre Sea Paddling

NOTE: Before completing a risk assessment please read the guidance notes document.

		<p>Helmets are to be worn for all Seal Launches.</p> <p>If the paddler capsizes Coach must be in a position to perform a rescue immediately either from the water, bank or craft.</p> <p>SUPs & Open Canoes are not to Seal Launch.</p>				
Getting trapped between boat and land during rough landing	All Participants	<p>Always keep to sea side of boat when landing.</p> <p>Only competent individuals sent to shore first to assist with landing the rest of group</p> <p>Consider if a helmet is appropriate to wear for the landing.</p>	<p>Dynamic risk assessment during activity by leader to assess any developing hazards and abort the landing if required.</p>			
Wind	All Participants	<p>Craft should keep away from jetties, bridge supports and other static obstacles and informed of the potential dangers of being blown against hazards.</p> <p>Dynamic risk assessment of strength of the wind to adjust distance of journey to enable a return against the wind if needed.</p>	<p>Change route, journey or activity if wind becomes too strong to paddle in safely.</p> <p>Cancel activities if wind become too strong to paddle safely.</p>			
Pollution, Waterborne Infection & Disease	All Participants	<p>Centre Staff & Coaches are to ensure a visual inspection of the training venue to confirm it is clear from obvious signs of hazards such as Blue Green algae, dead wildlife, floating debris or visible signs of manmade pollution.</p> <p>Checking of Environmental Agency reports available to Centre.</p>	<p>Continued Vigilance at the site to affirm continued clean water.</p> <p>Reporting any signs of pollution to local authorities and EA.</p> <p>Employ SCC SOP 016</p>	All Coach deliverers	Every Course	

Risk Assessment – Seapoint Canoe Centre Sea Paddling

NOTE: Before completing a risk assessment please read the guidance notes document.

		All participants advised to wash hands before handling food and drink and to shower at end of session				
Injury caused by rubbish dumped in water -	All Participants	This can be submerged and not immediately visible. Coaches to visually check water before start of session and remove hazards or move session location ; Coaches to end or move session if unsure of safety of session				
Spreading of Non Native Invasive Species (NNIS)	All Participants	Ensure all participants have cleaned and dried all paddling kit and craft coming for another water course or area.	Remind all participants for the need to clean and dry their equipment and craft to limit any chance of spreading NNIS	All Coach deliverers	Every Course	
Hypothermia & Hyperthermia	All Participants	JIs to include the need to be appropriately dressed for paddling activities, water temperature, ambient temperature and season. Spare clothing to be carried or available on the bank. Group Shelter carried. Warm/Cold drinks to be carried/available Snacks should be carried and available Appropriate training periods should be adhered to in order to allow venting/more layers to be added.	Coaching Staff to be mindful of the ambient temperatures and conditions and adjust the training programme accordingly. Play wet games when hot to keep core temperatures down, likewise keep participants dry for as long as possible in cold weather – unless appropriately dressed.	All Coaching deliverers	Every Course	

Risk Assessment – Seapoint Canoe Centre Sea Paddling

NOTE: Before completing a risk assessment please read the guidance notes document.

Dehydration	All Participants	<p>JIs to include the need to bring plenty of fluids, hot and cold.</p> <p>Regular breaks and opportunities to take on fluids.</p> <p>Continued vigilance of any paddler not seen taking on fluids.</p>	<p>Coach to lead by example and encourage regular fluid intake.</p>	All Coaching deliverers	Every Course	
Sunburn & Heat/Sunstroke	All Participants	<p>Remind all participants for the need for a good Factor 50 Sunscreen even on cloudy days, including the need to reapply during the day.</p> <p>Caps/Sunhats should be worn to protect the head. The effects of the sun glare must be considered and sun glasses should be worn to protect the eyes.</p> <p>Use of shade during rest or break periods</p>	<p>Coach to remind all participants to apply sun cream at the beginning of the training day and during breaks.</p> <p>Use shade during breaks or if possible during instructional periods on water</p>	All Coaching deliverers	Every Course	
Medical	All Participants	<p>JIs to include the need and opportunity to share any appropriate medical information with the Coaching Staff in order for them to keep participants safe on the water.</p> <p>Changing movement patterns/techniques/strokes to achieve the desired outcome for paddlers with long term injures/disabilities/conditions.</p> <p>Encourage participants share with the coach if they have an inhaler, auto-jet, are diabetic, or suffer seizures.</p> <p>Coach to be aware of any condition that might mean an adjustment in session length in order to fatigue</p>	<p>Coaches must take the time to understand the Medical issues of a paddler and how this may affect the session or their performance and adjust the session as needed.</p>	All Coaching deliverers	Every Course	

Risk Assessment – Seapoint Canoe Centre Sea Paddling

NOTE: Before completing a risk assessment please read the guidance notes document.

		<p>manage an individual whose condition may limit participation.</p> <p>Coach to research any SEN that may be divulged to select the best coaching techniques and language to ensure safety information in particular is communicated effectively.</p>				
Other Water Users	All Participants and 3 rd Parties	<p>Coach/Trainer to select quiet areas for coaching and rescue practice.</p> <p>Keep awareness of other craft moving into or through training zones and alert students or 3rd parties.</p> <p>All participants are to be briefed to alert the group of potential hazards they may see or encounter.</p>				
Lone Working	Coach/Provider	<p>Loan workers setting up are to wear BA within 2m of water.</p> <p>Participants to be briefed on 'Actions On' if Trainer is incapacitated.</p> <p>Location of emergency phone, 999 drills, medical and NOK details to be passed to Emergency Crews</p>	All Coaches to apply the SCC Lone Working Policy SOP 001			
Slips Trips and Fall	All Participants	<p>Good Housekeeping of kit and equipment in the working area to reduce trip hazards.</p> <p>Keep to recognised footpaths and routes to and from the water especially carrying equipment.</p> <p>Cleaning of Jetty of waterfowl excrement prior to the start of the day's activities to minimise slip hazard.</p>				

Risk Assessment – Seapoint Canoe Centre Sea Paddling

NOTE: Before completing a risk assessment please read the guidance notes document.

Equipment Failure	All Participants	<p>Inspection of all equipment prior to course.</p> <p>Inspection of equipment at end of use and reporting of any faults and removal from use.</p>	<p>Broken or defective equipment is to be segregated and reported to the CM or member of the SCT for repair or further action.</p>
